III. RED FLAG ISSUES.

- ¶1. The Kazakhstan EXBS Office continues to receive requests
to conduct training within country with little or no lead
time. The Ministry of Foreign Affairs (MFA) has advised the
EXBS Office that they require a minimum of 45-60 days from
receipt of an action cable to properly prepare and handle
the tasks required.

It takes a minimum of three to four days to properly
prepare a Diplomatic Note in English and Russian, and have
it vetted by appropriate Embassy officials. Then, it must
be forwarded to MFA in Astana, Kazakhstan. The MFA requests

a three to four week time frame from the day they receive a diplomatic note for action. Once MFA receives the Diplomatic Note, they then task the appropriate in country agencies. These agencies would also like a three to four week time span to prepare and respond to MFA.

Some of the tasking cable received for action within the EXBS Office does not allow sufficient time to make hotel and conference room reservations, obtain interpreters and specialized equipment for the proposed training. In addition, procurement regulations and Embassy policy require that we must obtain three separate bids from various vendors to meet GSO/B&F requirements. Finally, by repeatedly sending Diplomatic Notes with a short turn around, we needlessly antagonize our host country officials. For this reason, Embassy Almaty requests that any action cable be received no less than 45 days, preferably 60 days, before the event in question.

Dushanbe minimize considered.
